

LEPRECHAUN LOOKOUT CAN YOU FIND FINNEGAN?

Solve the clues below to not only figure out what 10 parks Finnegan is hiding in, but his exact location! Attached you will also find a list of 10 Township Parks as a reference guide. Remember you must write down all ten words to receive your pot of gold! Good Luck and have fun!!!!

1. **Let's embark on this journey together! There's a lot of W's near the park that I am at. They rhyme with words like foreign and footman.**

Ahh! to a wee little lad this park is pretty rad. To navigate this land please do not go towards the sand instead maybe climb that contraption of a design. I'm always up for a good time so let's take a ride on the slide. It's time to take a rest, but which bench is best? Be my guest and choose left or right, I must confess they both have nice views.

2. **Can you find me? The name is opposite of south, if you know where I am then you know that Norwood is right.**

This park is so big in size; it may take you some time so try to be wise. I could be here and I could be there. The only way to find me is by being aware of my rhymes. Are you a twin? I am not. I like the swings especially in the spring. After my basketball clinic I may like to have a picnic. So, here I sit it's just me, the twins, trees and my big grin.

3. **Myrtle told me the turtle crossed this field in a day, but I spoke to Ray and he said Archie crossed the field carrying hay. Now don't get me started on Maxwell he crossed the field doing hurtles.**

I'll try not to be tricky, but this may get sticky. There's one to my left and one to my right. There's no wall that divides it all, but rather a path that might lead us to reunite. Where can I be found? That is the question, there are a few things here that can be quite shiny, but I think I'd rather shoot and get a score of ninety. Now, wouldn't that be a hoot.

4. **This field is in the beach, but no water can be found. Two mounds can be found here. No matter the weather there is always action. Winter is when you can find kids sledding down the hill, in nicer weather you can see lots of bats and hats.**

Make a loop and shoot some hoops. Find the bat that is where I once sat, but now I'm on to something rather rocky. If you get stumped just remember to look up.

5. **When you visit this park you may have to listen as you may hear some of the deer. Although they may fear you remember they like to appear near the edge of the field.**

After the gate if you go straight you will arrive where I once ate. But the fun is to be had going to the right. Let's make this double the fun, you need to race each other down the slide. Please no frowns as the fun has only begun. Let's get funky and complete the monkey bars. Time to race like cars and take a flight on the swings. Despite your wings being tired you are now required to be a good sport and sprint to the court. No horsing around I can be found behind something concrete.

6. **This park is rather large and there are so many places to gather. When it is a hot day this is definitely where I will come to get sprayed.**

I'm a wee little leprechaun who likes to run free. Look at those sails!!! I wonder if this ship could help me see whales? Ohhhh, look there goes a bee, that bee led me and my two feet over closer to the sea. Here I am out on the sea where there's an alligator and shark just waiting for me. SHARK?? Before you embark, quick get back to the park! Whew!! Now I must venture to where I may sit and sip my thirst quencher. Are you stumped?? Where I'm found it's round.

7. **There's a water tower here, if I climb on top I can overlook the bay.**

As I frolic I notice that this park feels very patriotic. There's lots of green to be seen. Go down the swirly twirly slide, next glide with pride along the sidewalk. Now I know this may be a struggle, but I'd like you to wiggle until you get to the tunnel, inside there is where you complete this puzzle.

8. **How many clovers do you think we'd find if we rolled over in that outfield next to mine? I wish we could ask Richie for a hotdog. Can you figure out which park I chose to embark on next?**

What a wee little park surrounded by Irish pride. As I glide through and tackle the ladder. I can hear the birds chatter as I drink my Snapple. I twist my way down the turns before I say bye I look to the sky.

9. **This park has recently been renamed. To crack this code, you really must know the roads. If you are a townie you should know that there's a road named County. Here's some mercy as I know it's off of Jersey.**

Behind a big tree you may find what you seek. There's four you can't ignore. There's no need to climb to finish this rhyme. You are not being timed, but it's like the book 1 fish, 2 fish, red fish, blue fish you have to look.

10. **In the winter this park is filled with laughter as children can be found all around. There is no ivy, but I do have a hill**

If there was a cow, I think he'd say "Wow" as I play with all this hay. I can't imagine the events for this fence. If there was snow the kids would overflow. I'm no fool this place is pretty cool. There's lots of fun, not going up, but coming down. Just look around and I can be found.
